

SUPPLEMENT TO PETITION TO DENY (PC0107515)

Regarding File No. SAT-LOA-20260108-00016

Petitioner William Stewart hereby submits this formal notice to the record regarding the constructive denial and statutory breach of perfected Freedom of Information Act (FOIA) Request FCC-FOIA-2026-000548.

Statutory Non-Compliance: As of May 21, 2026, the statutory 20-business-day mandatory deadline for the Commission to deliver processed records under 47 CFR § 0.461 has expired without the issuance of a formal extension or a notice of unusual circumstances.

Exhaustion of Remedies: In accordance with federal FOIA statutes, the Commission's failure to comply with the mandated timeline constitutes a "constructive denial," confirming that the Petitioner has legally exhausted all administrative remedies and possesses immediate standing to pursue a compelling action in a U.S. District Court.

Administrative Irregularity: Commission internal data currently identifies this request tracking number as "Perfected" and in a state of "Fulfill" as of April 23, 2026. The active withholding of finalized, responsive records directly impacts the transparency of this proceeding.

A formal case inquiry was submitted via the Commission's ArkCase management infrastructure on May 22, 2026. If the finalized records are not delivered immediately, the Petitioner will pursue all available judicial remedies to compel disclosure.

Respectfully submitted,

/s/ William Stewart
