

CERTIFICATE OF DOCUMENT INTEGRITY

Documents Filed in: ICFS File No. SAT-LOA-20260108-00016

Date Filed: March 30, 2026

Filename: REQUEST_FOR_COMMISSION_ACTION_BAKKEN_3-30-2026.pdf

File Size: 712 KB (729,576 bytes)

Hash Algorithm: SHA-256

Hash Value:

D3477B0F67414649A7228B10B948C3C63F77C71B1F31E863082825F0ED241DC3

The above hashes were computed on the final versions of each document immediately before upload to ICFS. Any party may verify the integrity of any filed document by downloading it from ICFS and computing the SHA-256 hash using any standard implementation. If the computed hash matches the value above, the document has not been altered since filing.

This Certificate is filed because the record of this proceeding documents that the Applicant's own certified record was modified after certification, that ICFS is hosted on a non-.gov commercial vendor domain, and that the first entry in the Pleadings and Comments record was uploaded by the Applicant itself. Under these circumstances, document integrity on this docket cannot be presumed. These documents can be verified.

A copy of this Certificate and all hash values is also published on today's date at:
